

CARBON MONOXIDE DETECTOR GUIDE

2025 SAFETY TIPS FOR EVERY HOME

WHY EVERY HOME NEEDS A CO DETECTOR

Fuel-burning devices can leak this invisible, potentially deadly gas into your home:

- ✓ Furnaces or water heaters
- ✓ Fireplaces or wood stoves
- ✓ Generators or gas space heaters
- ✓ Attached garages

WHERE TO INSTALL DETECTORS

- ✓ Near bedrooms
- ✓ Every level of your home
- ✓ By appliances like furnaces
- ✓ Outside attached garages

CO POISONING PREVENTION

- ✓ Install detectors on each level
- ✓ Check your batteries twice a year
- ✓ Get annual inspections of devices
- ✓ Never run engines indoors

SYMPTOMS OF CO POISONING

- ✓ Headaches
- ✓ Nausea
- ✓ Fatigue
- ✓ Dizziness
- ✓ Confusion
